Surging power you've never seen before in a Sears estate tractor . . power that zips through big acreage . . power aplenty not only for farmers, suburbanites and estate owners, also for communities, institutions, parks, commercial and industrial firms.

Sears also provides extra ways to use that extra power by expanding its line of custom-designed, swift-switch implements (see pages 1022, 1023). It's easier to use implements, too—new low speed eliminates need for extra pulleys, under-drives, power take-offs, etc. Six forward speeds from .75 to 5.9 MPH . . 2 reverse speeds.

Electric starter, key-start switch. Dual headlights, taillight. Spring-mounted seat, plastic foam cushion. Extra-short 25-inch inside turning radius. Parking lock. Big 24-inch diameter rear wheels, oversize (7.50x12) Turfsaver tires. 12-volt battery.

Tractor and mower shipped by freight (rail or truck) or express. For full description of 42-inch Mower see page 1023.

Tire can be mounted with whitewall  
side out (as shown) or mounted to  
show sporty blackwall side

**Compare Sears New Radial Tire with an "ordinary" tire . . . see how its patented construction gives new strength, new stability and unsurpassed wear!**

### SEARS ALLSTATE RADIAL

Runs much cooler because sidewall and tread area work independently of each other . . . interior friction is minimized and tread squirming is virtually eliminated. The tire walls (1), with plies laid radially bead-to-bead instead of criss-cross, are extremely flexible and so absorb most of the road shock. The tread, supported by layers of steel cord (2), is stable and undisturbed by tire wall movement because thousands of tiny triangles (like bridge trusses) permit only a free-rolling movement.

### The "ordinary" tire

Steering precision is less because the tread is bonded to a flexible criss-cross casing (3). The angles between these casing layers change as the tire rolls, generating internal heat; the tread is free to "shuffle" and scrub, developing still more heat, leading to rapid wear and making skidding easier.

Sears guarantees the Allstate Radial Tire, so long as it is used with Allstate Radial tubes on passenger cars or station wagons, as follows:

**1. Guaranteed against tread wear-out** and all failure from road hazards for 40,000 miles. If tread wears off or if tire fails before 40,000 miles, we will, upon presentation of your guarantee card, at our option repair it without cost to you or, in exchange for your tire, replace it or give you a refund, in either case charging you only for the mileage received. This charge will be computed by determining the percentage of the guaranteed mileage actually received and multiplying this figure by the price\* of the tire, including Federal Tax, at time of adjustment.

**2. Guaranteed against all failures** from defects for the life of the original tread. If tire fails, we will, at our option,

repair it without cost to you, or in exchange for your tire, replace it or give you a refund, in either case charging only for tread worn. This charge will be computed by determining the percentage of original tread that has been worn and multiplying this figure by the price\* of the tire, including Federal Tax, at the time of adjustment.

\* (Current catalog price if adjustment is made at a catalog store; current regular retail price less trade-in allowance if adjustment is made at a retail store).

**COMMERCIAL USE . . .** Allstate Radial Tires used in commercial service are covered only against failures resulting from road hazards or defects. Commercial service is defined as other than normal private passenger car or passenger station wagon service.

**GUARANTEED

MILES**

### IMPORTANT INFORMATION REGARDING THIS NEW ALLSTATE RADIAL TIRE:

We offer, in the table below, three sizes of this great new tire. As you can see, this tire can be used to replace many sizes of "ordinary" tires when used at the inflations shown in car chart shipped with order. It features a sporty 13/32 inch wide whitewall that will complement any car.

To enjoy the greatest in tire performance, equip your car with a complete set. In any case, **always mount them in pairs**—and if you use only a pair, mount them on the rear wheels

(even if your car has front-wheel drive).

The exceptional flexibility of the radial tire sidewalls may result in a "bulgy," under-inflated look. Do not over-inflate! The tire is designed to provide optimum service when inflated as recommended.

It is essential to use the specially engineered Allstate Radial Tire tube listed below; it will provide outstanding performance with other radial tires and conventional tires as well.

### Year-round Coat of Dacron\* and cotton poplin

Features a zip-out pile lining with its own quilted sleeves . . plus a zip-off pile-lined hood

Made for all weather, all seasons, in a water-repellent blend of 65% Dacron\* polyester, 35% combed cotton. Extra benefits—Dacron\* polyester adds wrinkle resistance, the easy care of machine washable, warm, little or no iron.

Warm coat and hood pile linings are Orlon\* acrylic on cotton back, are bound with tape to guard against ravelling. Zip-out lining has quilted acetate sleeves for even more warmth. Two zippers turn a snug winter coat into a mild-weather topcoat. One removes the pile lining with its sleeves, reveals a full lining of acetate taffeta. The other zips off the hood.

Extra special are the shoulders, set-in in front for a dressy look, raglan in back for a comfortable fit over clothing. Fine details of styling are the sleeve tabs, two flap pockets and muted plaid colors.

State size 3, 4, 5, 6, 6x.

### Wide-wale Corduroy Grid Coat

\$12<sup>99</sup>

**BEST BECAUSE:** Pile lining in zip-off hood and coat is extra deep and winter warm. Top quality wide-wale cotton corduroy feels so velvety, looks so rich, wears so well. Fine topcoat tailoring plus an unusually well made hood add superb fit and good looks. Machine washable, warm, too.

Malden's lining is Orlon\* acrylic on cotton back, bound with coordinated tape to guard against ravelling. Sleeves are lined with quilted acetate. Bulky knit collar of cotton and nylon keeps its shape, is trimmed with tabs and buttons. Hood has drawstring adjustment. 2 slash flap pockets, chest shields and button trim at sleeves.

State size 3, 4, 5, 6, 6x.
